

## **Auto Detailing Team Manager / Paint Corrections / Coating Specialist**

CarGuys Auto Detailing in Northern Indiana is seeking a talented and motivated individual to lead the paint correction and ceramic coating division in our fast growing company. This position has you working daily on some of the world's most desirable, exotic and historically significant automobiles as well as daily drivers, marine and aircraft.

You will be working with the latest and best equipment, tools, and chemicals in the detailing industry, as well as representing a well-respected ceramic coating brand thru CarGuys' earned accreditation.

Paint correction experience is a must, with a minimum of 2 years of rotary and DA polisher experience and moderate to advanced sanding experience. Body shop experience is highly desired. Interior detailing or reconditioning experience is desired but not required. Management experience is helpful but experience in providing exceptional customer service to our valued customers is a must. Management training and advanced detailing education through industry experts will be provided to a highly motivated candidate.

Time management skills and ability to stay on task is necessary in our busy shop.

Valid drivers license with exceptional driving history is required, Must have the ability to drive a manual transmission.

This is a salaried position based on the level of talent and experience that you bring to CarGuys and we are willing to pay for it. Opportunities for commission, bonuses for quality work/outstanding customer service as well as paid vacation are included. A flexible work schedule based on production is also offered if desired.
